CONTINUOUS VERTICAL BAND SEALING MACHINE

MXC-FR-900-ECO-VR

Description: This continuous vertical band sealer can seal plastic films made from various materials continuously. It is simple to use and appropriate for small package sealing in the chemical, general retail, pharmaceutical, spice, and food industries. It can reduce workers time and effort because of its 3 kg conveyor loading capacity. This machine is able to increase packaging against heavy production

Features:

- Easy to operate.
- Fast packing machine.
- Premium quality heavy duty machine and Time saver.
- Different types of packets can be sealed.

Specifications:

Product Type: Vertical Band Sealer

Brand: Generic (Imported)

Body Material: MS Body

Voltage: 220 V

Frequency: 50Hz

Power: 650 Watt

Sealing Speed: 0-12 m/min

Sealing Width: 10 mm

Temperature Range: 0-400 Celsius

Motor Power: 80W

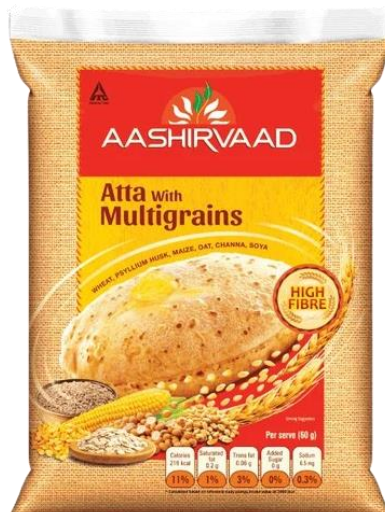

Bag Thickness: 0.02-0.5mm

Dimensions (L x W x H): 400 x 255 x 240 mm

Weight: 8 Kgs (Approx.)

Applications:

Continuous vertical band sealing machines are ideal for sealing plastic and laminated pouches in a vertical position. They are used where liquid, powder or granular products are packed, and there is a need to keep the pouch upright during sealing.
